Formative Assessment for Montana Educators—Classroom Instruction
February 21-May 27, 2011

FAME CI is part of a series of online professional development opportunities offered by the Montana Office of Public Instruction.

- The purpose of this course is to increase understanding of formative assessment and to help participants become skillful users of formative assessment in their classrooms.
- Participants will closely examine the process of formative assessment. In addition to reviewing the research base for formative assessment, participants will focus on all the attributes of effective formative assessment and how they are implemented effectively in the classroom.

Assigned Readings

- Every other week, students will read assigned chapters from *Formative Assessment: Making It Happen in the Classroom* by Margaret Heritage and additional articles provided by the instructor.

Professional Learning Communities (PLC's)

- Learning Community Discussions will occur every other week for 1.5 hours at times that are convenient for participants.
- The PLC's will be facilitated online.
 - The platform for the course is Adobe Connect, which is supported by the Office of Public Instruction.
 - In order for participants to connect and listen to the sessions, they must have speakers and Adobe Flash Player, which is already installed on 98% of computers today.
 - To participate in the learning communities, participants will need microphones. The Office of Public Instruction will provide information on the microphones in follow-up detailed emails to class registrants.
 - Technical support will be provided so that each participant or group will be able to participate fully in the discussion via technology.
 - After registration for the course, instructions for accessing the online discussions will be sent to registrants.

Class Personnel

- Judy Snow, OPI State Assessment Director
- Stevie Schmitz will facilitate the learning communities and grade the assignments for those taking the course for graduate credit.
- Karen Richem, OPI Assessment Specialist, will provide technical support.
